

BRANDT® 719 Spreader

Penetrant • Wetting Agent • Spreader

Principal Functioning Agents:

Polyoxyethylene-polyoxypropylene polymer,
methylated silicones 100%

CA Reg. No. 48813-50027-AA

DIRECTIONS FOR USE

BRANDT 719 SPREADER is a patented proprietary trisiloxane alkoxyate based wetting agent for use in pesticide spray applications. This non-ionic surfactant may be used to improve both spray coverage and uptake of spray solutions used on agricultural, forestry, turf and ornamental, industrial, and non-cropland sites. Not for aquatic use.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with BRANDT 719 SPREADER. Use according to the most restrictive label directions for each product in any tank mix.

COMPATIBILITY: BRANDT 719 SPREADER is compatible with most pesticides, however it will break down when mixed with highly acidic (below pH 4) or highly alkaline (above pH 9) chemicals, which may result in poor wetting and spray coverage. If the desired combination has not been previously used, a compatibility test is recommended.

NOTE: Do not use BRANDT 719 SPREADER in spray tank mixes with gibberellin or gibberellic acid products to be used on any citrus crop grown for fresh market.

MIXING: Fill spray tank 3/4 full of water and begin agitation. If foaming is expected, use an antifoaming agent, such as BRANDT ORGANICS DEFOAMER. Then add products as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersing granules, (2) Wettable powders, (3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. Continue agitation until spray solution is completely mixed.

Add the recommended amount of BRANDT 719 SPREADER. Minimal agitation of finished spray is recommended. For optimum results, use the spray solution within 36 hours after mixing. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

RECOMMENDATIONS: Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 5% of the finished spray volume.

As a Spray Adjuvant:

Ground: 6-64 fl oz per 100 gal; adjust rate or water volume to obtain thorough coverage without excessive run-off.

Aerial: 1.6-3.2 fl oz per 5 gal

As a Soil Wetting Agent:

Lawns and Turf: 0.05%-0.125% v/v concentration

Greens and Tees: 0.05%-0.125% v/v concentration

Deep Feeding Trees: 0.10%-0.20% v/v concentration

Important: Additional Operating Instructions for Chemigation. Review your state and local regulatory requirements before applying any pesticide, adjuvant or agricultural chemical through an irrigation system.

Refer to this product's SUPPLEMENTAL LABELING FOR CHEMIGATION APPLICATIONS for additional use requirements and restrictions (Washington State only) found at: <https://brandt.co/chemigation>

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Based on currently available data, this product is not classified as a hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling.

ENVIRONMENTAL HAZARDS

Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Dispose of waste and residues in accordance with local authority requirements.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

LIMITED WARRANTY: BRANDT Consolidated, Inc. ("BCI") warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. BCI AND SELLER MAKE NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, BCI and the Seller shall not be liable to the Buyer or user of this Product for any consequential, special, incidental or indirect damages.
