

# BRANDT® Converge Foliar Nutrition with Nitamin® Extended Release

BRANDT Converge formulations contain Nitamin, a targeted foliar nitrogen and patented liquid nutrient source. It is designed to make some nitrogen immediately available, while reserving the rest to provide a steady supply of nitrogen.

## BRANDT CONVERGE Key Benefits

- Nitamin is applied directly to the leaf surface for rapid absorption and green-up
- Low salt index and low levels of ammonia and biuret, it is a safe fertilizer solution
- Due to its high N concentration, it stays soluble longer - delivering enhanced foliar uptake over an extended period of time
- Compatible with a wide range of micronutrients and plant protection chemicals

## Application and Use

For best results, apply twice a month as a foliar spray early in the morning, or late in the day. Allow foliar sprays to dry thoroughly before irrigation to insure even foliar uptake.
