

BRANDT® Manni-Plex® Foundation

Foliar Multi Trace Elements

Guaranteed Analysis

Boron.....	0.24% w/v
Copper.....	0.06% w/v
Magnesium.....	0.60% w/v
Manganese.....	1.08% w/v
Zinc.....	5.69% w/v
All as Manni-Plex sugar alcohol complex	
Nitrogen as Urea.....	0.25% w/v
Nitrogen as Nitrate.....	2.75% w/v

General Information

BRANDT MANNI-PLEX FOUNDATION is specifically formulated for enhanced delivery of micronutrients.

Rate Recommendations

Horticultural and Broadacre Row Crops

Apply 1 to 2 litres of BRANDT MANNI-PLEX FOUNDATION as a foliar application per hectare throughout the growing season. Multiple applications may be needed to correct deficiencies once they occur. Use a minimum of 100 litres of water per hectare per application.

Fruit/Nut Trees and Vine Crops

Apply 2 to 3 litres of BRANDT MANNI-PLEX FOUNDATION as a foliar application per hectare throughout the growing season. Multiple applications may be needed to correct deficiencies once they occur. Use a sufficient amount of water to ensure adequate coverage. Coverage should occur to just prior to the point of run-off.

Aerial Application

Use a minimum of 30 litres per hectare total volume; use the lower foliar rate as a guide for aerial application.

Optimum rate of application will vary depending on your soil properties such as soil pH, organic matter content, soil texture, weather conditions, time of year, general crop health and species. For best results, follow soil test or plant analysis recommendation.

Mixing Instructions

Put 1/3 to 2/3 of total desired water volume in tank. Add adjuvant(s) if desired and agitate until thoroughly mixed. Add pesticide(s) if desired and agitate until thoroughly mixed. Add desired amount of BRANDT MANNI-PLEX FOUNDATION and agitate until thoroughly mixed. Fill tank with remainder of desired water. A jar test is a good field practice for evaluating compatibility of multiple chemical mixtures. Caution: Check compatibility with chemical mixtures, high phosphate and alkaline (high pH) solutions.

Compatibility

BRANDT MANNI-PLEX FOUNDATION may effectively be applied with many agricultural chemicals. For unfamiliar tank mix combinations sufficient evaluation to determine efficacy and crop safety may be warranted. Avoid tank mixing with phosphate and/or excessively alkaline based fertilizer solutions.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Caution: Avoid contact with skin, eyes and clothing. May cause eye irritation. Wash hands thoroughly after using. In case of eye contact, flush eyes with water for at least 10 minutes and seek medical attention. **Storage and Disposal:** Do not contaminate water, food, or feed by storage or disposal. Store in a cool, dry, locked area out of reach of children. Protect from excessive heat or cold. Triple rinse (or equivalent) and dispose of container in accordance with local, state and federal regulations.

LIMITED WARRANTY: The Manufacturer warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. The Manufacturer and Seller make no other warranties, express or implied, including warranty of merchantability or fitness for a particular purpose. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, the Manufacturer and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
